

SAFETY POLICY

Ironbark values the safety of our employees. As part of our commitment to achieving the principles of health and safety in our workplace, we provide a safe and healthy work environment for workers and clients. This commitment also extends to ensuring that our operations and activities do not place the local community at risk of injury or illness.

The management system outlined in this IMS is designed to satisfy the requirements of AS4801:2001, all appropriate Australian standards, relevant legislation, codes of practice licensing and our contractual requirements.

Ironbark will establish and review performance against measurable objectives in regular Improvement Meetings and the annual Management Review of the IMS to ensure its continued compliance and suitability to client requirements. Statistical reports will be produced and reviewed quarterly to monitor trends and continuous improvement.

Our Safety Policy is reviewed annually or as required based on day-to-day needs. All staff are invited to have input to our Quality, Safety and Environmental Policies through Toolbox Meetings and training forums. We also communicate our policy via our website.
